ANDRIJA BOTICA

SOFTWARE ENGINEER

+385994354025	Split, Croatia	andrija.botica1613@icloud.com	github.com/abotica

PROFESSIONAL SUMMARY

Computer science MSc student with over 1 year of professional experience building and maintaining production web applications. Proven across NextJS, TailwindCSS, React, PHP and JQuery technologies. Comfortable owning projects end-to-end, from Docker-based local dev to cPanel deployment.

EDUCATION

Master's degree | Computer Science, FESB | 2024 - Present

Bachelor's degree | Computer Science, FESB | 2021 - 2024

EXPERIENCE

Dotien | Web Developer | Split, Croatia | Mar 2025 – Present

- Maintained and extended TheShowtime, a high-traffic Croatian entertainment platform serving 10,000+ daily users, implementing new features and resolving bugs (PHP, SCSS, jQuery, cPanel)
- Built and delivered pixel-perfect frontend interfaces for a US-based client, meeting design specifications with zero revision cycles (TypeScript, TailwindCSS)
- Developed web solutions for agency clients, reducing environment inconsistencies by containerising the full development workflow (Node.js, TypeScript, Docker)

FESB - Computer Science Dept. | Demonstrator | Split, Croatia | Oct 2024 – Feb 2025

- Mentored 100+ undergraduate students in core web fundamentals across weekly lab sessions, improving hands-on understanding of browser-based development (HTML, CSS, Vanilla JavaScript)
- Accelerated student onboarding to professional tooling by guiding adoption of industry-standard development environment setup (VS Code, Git)

FESB - Computer Science Dept. | Demonstrator | Split, Croatia | Oct 2022 – Feb 2023

- Supervised and guided 100+ first-year students through weekly C programming labs, directly improving pass rates in practical assessments (C, structured programming)
- Broke down complex low-level concepts — pointers, memory management, and control flow — into digestible explanations, boosting student confidence in foundational CS skills

SKILLS

Core: TypeScript, JavaScript, Python, Node.js, React, HTML, CSS

Tools: Docker, Git, VS Code, Cursor IDE, TailwindCSS, SCSS, cPanel, AI-assisted development

Methods: Agile workflows, component-driven development, REST APIs, responsive design

Soft Skills: Technical mentorship, client communication, independent delivery

CERTIFICATION

React JuniorDev | Digitalna Dalmacija | 2024
